

Welcome to the Buenaventura IEEE Section for December 2010

Dec 8th **Beyond the Bachelors Degree II: Landing Your First Job**
Computer, (or maybe your next) Panel Discussion
EMBS 6:00 dinner in Ahmanson Science Center,
6:30 presentation in Nygreen 1, California Lutheran University

Congratulations to our newly-elected Section officers for 2011. They are:

- Karl Geiger – Chair
- Bridge Carney – Vice Chair
- Albert Wolfkiel – Treasurer
- Zak Cohen – Secretary

...and thanks to the Section officers who are leaving their posts at the end of the year. This is the end of my tenure as Section Chair – it's been challenging and fun. I encourage you to become active in your favorite Chapter or at the Section level, too!

Please renew your IEEE Membership for 2011

As you renew your 2011 IEEE membership, take a look at other Societies you may want to include. These may be of direct, current interest or may be of interest to you for future investigation. We tried to launch a new Power and Energy Society [PES] chapter this year in the Section, but didn't have enough local PES members to complete the petition. We'll look at membership distributions again in early 2011 for other such opportunities.

Member-Get-A-Member Program

The IEEE Member-Get-a-Member (MGM) program is a peer-to-peer recruitment activity offered exclusively to IEEE members. We're pleased to recognize this month's top program participants. For program information, visit www.ieee.org/mgm.

Steve Johnson, 2010 Section Chair

Job Opening – Director, Product Engineering, RoundTrip (www.roundtripllc.com), Los Angeles, CA

Director of Product Engineering responsible for product design using a new, patented RF location technology. Provide effective leadership, development & motivation of engineering team & function as key member of the strategic management team. RoundTrip uses fully coherent cooperative signaling between tags & locators measuring time of flight & Doppler to precisely place distant persons and objects.

Celebrating 125 Years
of Engineering the Future

The Buenaventura Section is one of the most active in the western United States, with over 100 speaker events in the last two years, and global recognition for our Chapters and Affinity Groups. We welcome your attendance and participation in Section events!

EMBS: Chapter of the Year 2006 and 2008

LMAG: Life Member Affinity Group of the Year 2009

Buenaventura Section Chapters

Aerospace Chapter provides speaker events to members interested in the design, integration, test, and analysis of large, complex systems consisting of major subsystems that contain dissimilar electronic devices. Most of our members work on sensor systems (radar, Sonar, optics, and navigation), communications systems, command and control centers, avionics, space systems, military systems, digital signal processing simulators, and software development. Some members work on robotics, energy, and transportation systems

Communication Society Chapter a community comprised of a diverse group of industry professionals with a common interest in advancing all communications technologies.

Computer Society Chapter chapter's vision is to be the leading provider of technical information, community services, and personalized services to the ventura county's computing professionals.

Electronic Devices Circuits and Systems chapter places its interest in all aspects of the physics, engineering, theory and phenomena of electron and ion devices as well as looks at the theory, the analysis, the design (computer aided design), the practical implementation of circuits, and the application of circuit theoretic techniques to systems and to signal processing.

Engineering in Medicine and Biology Society chapter serving the needs of biomedical engineers in ventura county. Its leadership is striving to develop new ways to serve its members with modern information from remarkable speakers.

Life Member Affinity Group IEEE "Life" status is an automatic process which is based on an individual's membership record and age. The member must be at least 65 years of age and has been a member of IEEE or one of its predecessor societies such that the sum of age and years of membership equals or exceeds 100. The Buenaventura Section has the only Life Member Affinity Group in Southern California.

Microwave Theory and Techniques Society chapter promotes the theory and applications of RF, Microwave, Millimeter-wave, and Terahertz technologies.

Robotics chapter interested in both applied and theoretical issues in robotics and automation, including intelligent machines and systems used, for example, in space exploration, human services, or manufacturing, and the use of automated methods in factory, office, home, laboratory automation, transportation, and other systems to improve performance and productivity.
