

## New Meeting Event!

Wednesday, September 14, 2011, 6:30pm-8pm

### Tour of Coastal Connections, Ventura, CA Manufacturer of Specialty Fiber Optic Terminations & Cable Assemblies

**Coastal Connections** was founded in 2002 to serve the specialty fiber optic termination market and is reported to be the 20<sup>th</sup> fastest growing company in the Tri-Counties according to the Pacific Coast Business Times. They specialize in solving technical challenges involving very precise (<0.5um) alignment and surviving mechanical stresses from extreme environments. Their cables are used in: LASIK eye surgery, intravenous plaque analysis, blood analysis, explosive ignition, military sensors, electronic countermeasures, space communications, oil industry sensors and even in searching for aliens. [www.coastalcon.com](http://www.coastalcon.com)

**Presentation:** Where are fiber optics going, beyond communications, and what are the mechanical challenges Coastal Connections faces.

**Host:** Andy Devine, President and Founder, [www.coastalcon.com](http://www.coastalcon.com)

**Where:** Coastal Connections, 2368 Eastman Ave, Unit 11, Ventura, CA 93003
