Section Membership

In 2011, we are planning more outreach to existing and new members. Our section goal is to expand membership especially to new engineers and practitioners in our field, and to students in our local 2-year and 4-year colleges.

Our membership development officer is our Vice Chair Bridgeman Carney. Please contact him or your chapter chairs about how you can help.

Member-Get-A-Member Program

The IEEE Member-Get-a-Member (MGM) program is a peer-to-peer recruitment activity offered exclusively to IEEE members. We're pleased to recognize this month's top program participants. For program information, visit www.ieee.org/mgm.

Photonics and Power Societies

The Section membership has expressed interest in establishing Photonics and Power Engineering chapters. If you are interested, please contact

- Jim Leatham, jleatham@ALUM.MIT.EDU, about the Photonics chapter
- Bridgeman Carney, bcarney@ieee-bv.org, about the PES chapter

New Ways to Keep in Touch

We also wish to help members getting and staying in touch with each other. We have some new web and email tools that we are putting in place that make it easier to post news bulletins, job information, and so forth. The Computer Society chapter has been using this system for the past year, and the Section will be moving to it as well. See

- <http://www.ieee-bv.org> (Section)

If you have ideas or suggestions, please contact Karl Geiger or Deron Johnson.
