Senior Membership Elevation Clinic

The July 14th Clinic went well despite some glitches with the application software (the site had problems with FireFox browsers). Thanks to all the hard work by Senior members and Applicants for inputting resumes and reviews. We met the 23rd July deadline for the IEEE’s Advancement Review Panel Meeting on the 28th. Congratulations to the twenty members who have advanced to Senior grade.

We are also looking to hold another elevation clinic in about six months. Stay tuned to the newsletter and website for details.

2012 Membership

There is no better time to discover the value of IEEE membership!

New members who join between 1 March and 15 August are billed at half-off the full-year membership dues, and receive membership benefits now through 31 December 2013. That’s 1 ½ years value for the price of 1 year.

To apply to join, see

IEEE Orange County Consultants Network (OCCN)
Los Angeles Area Consultants Network (LAACN)
and the IEEE Foothill Section PACE
present

Dr. Gary L. Blank
IEEE-USA Vice-President
Career and Member Services
and Candidate for IEEE-USA
President-Elect 2013

New IEEE Tools, Services, Programs, and Networks for Consultants, Entrepreneurs, the Employed and the Unemployed

Abstract:

What can the IEEE-USA do for you? Dr. Gary L. Blank, IEEE-USA Vice-President, Career and Member Services, will describe new tools, new services, and new programs, and updates on older ones, at this special meeting. These are all designed to advance the careers, practices, and networking of consultants, entrepreneurs, those who are employed, and those who are unemployed.

During his talk, Dr. Blank will explain how the Consultants Networks function, and how they interface and work with other IEEE organizations including the Sections, PACE, Chapters and Societies, WIE Women in Engineering, GOLD, and Life Members. He will describe the powerful IEEE-USA Consultants Database website and how it helps consultants find clients. He will also talk about the newly-formed IEEE-USA Entrepreneurs Networks and how effective they are in helping members to start new businesses, the new IEEE-USA Employment Networks that are rapidly growing and how they are helping our unemployed members to find jobs, and some of the new career advancement tools and services.

About Dr. Blank:

Dr. Blank earned his Ph.D. in Electrical Engineering at the University of Wisconsin in Madison. He has been a full-time technical consultant for many years having provided consulting services for more than 40 major corporations and government agencies. He is the founder of the IEEE
Chicago/Rockford Consultants Network which has over 200 members, and is the past chair of the AICN (Alliance of IEEE Consultants Networks). He has been a full-time professor of Electrical and Computer Engineering at Illinois Institute of Technology, Northern Illinois University, and Marquette University. He also taught at UCLA, and the University of Florida. He has worked with and consulted with many companies in Southern California. He is currently consulting with the U.S. Department of Energy in the areas of Smart Grid, Electric Vehicles, and Renewable Energy, and with the United Technologies Corporation (Hamilton Sundstrand) in the areas of Control Systems and Power Electronics.

His current IEEE-USA VP responsibilities include over 40 IEEE Consultants Networks in the USA, many of which he has founded for their sponsoring Sections. He also provides a 6-hour workshop/training for the members of the Networks on how to start and how to rapidly expand a successful consulting practice. In addition to the AICN (Alliance of IEEE Consultants Networks). Dr. Blank, as IEEE-USA Vice President, is also responsible for the start-up and management of the IEEE-USA Employment Networks, the IEEE-USA Entrepreneur Networks, the IEEE-USA K-12 STEM Literacy Activities, and the IEEE-USA Professional Engineering Licensure and Registration programs. He is a candidate for IEEE-USA President-Elect 2013, nominated and endorsed by the IEEE-USA Board of Directors.
